Description

PERISH is a stylish four-player FPS with a cross to bear. Slay hordes of creatures on the black sands of Purgatory and sell their gold-stained corpses to craven priests. Kill magnificent bosses and use the proceeds to gain entrance to Elysium, a place of cosmic revelations.

You are amyetri, a corporeal spirit condemned to live a shadow life in the halfway realm of Purgatory. Bring an end to your suffering by initiating the Rites of Orpheus and defeat the chthonic deities that dominate your fractious path to Elysium.

Features
